Ever-Blooming Tea Rose, Maid of Honor.

NEW ROSE, MAID OF HONOR.

We give our best indorsement to this charming, new, ever-blooming Rose, whose merits are of the highest order. This splendid new rose is a sport from the well-known and highly valued Bridesmaid, which it closely resembles in size and form, but is superior to it, and is much brighter and deeper in color. The flowers are very large and of fine, regular full form, delightfully tea-scented; color clear rose-pink, with delicate crimson shadings; a free and constant bloomer, and good healthy grower, makes elegant buds and is altogether one of the most promising new roses. Price, 15c each; strong 2-year-old plants, 30c.

FOUR GRAND NEW ROSES Shown on Back Page of Cover.

Price, 10 cents each; the four varieties for 25 cents; strong two-year-old plants 25 cents each; the four for 75 cents

TRIOMPHE DE PERNET PERE.

Originated and sent out by Jean Pernet, one of the most celebrated Rose growers of France, who considers this the triumph of his life. The flowers are extra large, having broad thick petals and long tapering buds, with delicious tea fragrance; color fine, clear magenta red, sometimes passing to bright crimson; very striking and beautiful, and of such good substance the flowers retain their beauty for a long time.

MURIEL GRAHAM.

This superb Rose is from that favorite variety, Catherine Mermet, and is perfectly distinct in color from anything extant, which is a pale cream, faintly blushed rose. The habit of growth is similar to its parent, sent out by Alexander Dickson & Sons, Belfast, Ireland, who consider it one of their best introductions. Well worth our best recommendation.

MEDIA.

This is the grandest of all Yellow Roses, and should be planted by everybody. Flowers are of the largest size, perfectly double to the center, and of the most perfect shape, both in bud and blossom, while its color is a degree of loveliness unapproached by any other Rose, being a rich, deep golden, with decided sulphur tints. The brightness and richness of this Rose is the admiration of all beholders.

SANTA ROSA.

An elegant new Tea Rose from California. This lovely new sort is a cross between Hermosa and a thick-pelted seedling well-known Bon Silence, and will prove hardy everywhere with slight protection. The color is rich rosy pink, shading to coppery red. It is a constant and abundant bloomer.

INTRODUCTORY.

IN PRESENTING our small and unpretentious Catalogue, we are aware that it does not appear so attractive as those with alluring illustrations, high-colored lithographs, or elaborate descriptions so often overdrawn and imaginary, for which you must pay higher prices to defray the expense of publishing such an edition. Neither do we spend \$25,000 a year for advertising, for which the purchasers must pay their portion of this excessive expense also. Thousands of new readers will see our Catalogue this year for the first time, and we ask of them a careful examination, feeling sure that it offers many things that will prove a profit or pleasure, and hope that our reasonable prices and assurance of careful attention to all orders, large or small, will bring us at least a trial order. We have abandoned all complicated club rates, and have reduced the prices throughout the Catalogue correspondingly. We believe this plan will very much simplify the making out of orders, and it will save all, both you and us, the calculation of discounts, etc.

SPECIAL INDUCEMENTS TO CLUB RAISERS.

Any one sending us an order for Plants, selected from this Catalogue, to amount of \$6.00, may remit us \$5.00 and keep the remaining \$1.00 for their trouble.

IMPORTANT.

We pay postage on all orders, large or small. We pay the express when the order is \$3.00 or more. Get your friends to order with you.

Of course it will cost us lots of money, but it will be to the advantage of our patrons. You will have your plants laid down free at your doors, the same as though the greenhouse was in your town or village.

PLEASE READ THIS.

Although we do not offer as long a list of varieties as some, yet our stock in quality, condition and extent is unequalled, and we contend that our customers are safer in selecting from our list of choice tested varieties than if we offered a long list, which would of necessity contain many inferior sorts.

USE OUR ORDER SHEET.—In ordering, please use the convenient order sheet which accompanies each Catalogue.

DISTANCE WE CAN SEND.—Don't think you live too far away to order, or that plants won't come safely. They will; and we can serve you just as well 3,000 miles off as if you were here in person. We take all the risk and guarantee safe delivery, so that if you order of us you can depend on getting the nicest things in good, fresh condition, postpaid, at your door.

YOUR ORDER IS SAFE IN OUR HANDS, and we will do everything we can to please and help you.

A FEW WORDS ABOUT OUR GREENHOUSES.—Our Greenhouses occupy nearly two acres solid, under glass, are heated by hot water, and are equipped with every modern appliance, so that they are easily graded to any temperature; thus the most perfect health and vigor are given to the plants. We also have a large tract of land devoted to growing plants and bulbs of all kinds.

WE MAKE THE GROWING OF PLANTS AND BULBS A SPECIALTY.—We devote our whole time to growing plants and bulbs, and claim to be able to produce a better article than those who grow seed and miscellaneous stock. With our large area of glass and superior facilities, we are enabled to offer you good, strong plants, that are sure to grow and bloom, at such a very low price that there is no excuse for depending on seeds with all their uncertainty and disappointment.

We solicit from all buyers a careful examination of the following pages, assuring you that orders, large or small, will have careful attention; be handled and packed in the best manner; delivered to you in good condition; that mistakes, if they should occur, will be cheerfully and promptly rectified.

The Three Marechal

Neil Roses.

YELLOW, RED AND WHITE.

NEW CLIMBING ROSE.

Red Marechal Neil.

The Yellow Marechal Neil has been known from time immemorial as one of the most fragrant and delightful of all Roses. The Red one is a cross between the old Marechal Neil and the equally well-known and desirable rose, General Jacqueminot. The flower is very large, well-shaped, full and like the Yellow Marechal Neil in form of buds and flowers. The color is a bright carmine red, shading to pink; very sweetly fragrant; flowers most freely on branches of last year's growth and should therefore be trimmed very sparingly. In habit of growth it is very vigorous and of climbing habit, though not quite so strong growing as the Yellow Marechal Neil. It has one important advantage over the latter, however, in being very hardy, it having withstood, unprotected, the severe storms of Northern New York. It received a gold medal at the Rose Exhibition of 1897 at Frankford-on-Maine, Germany. The leaves are very large, glossy and handsome. Price, 15c each; large 2-year-old size, 40c each.

White Marechal Niel—The fame of Marechal Niel, with its large, deep, golden-yellow flowers, is so world-wide that nothing further need be said of this new variety to make it instantly popular than that it is the exact counterpart in every respect of Marechal Niel, its parent, save the color of flower, which is a pale creamy-white totally distinct. This remarkable variety is selling at enormous prices in Europe, where it originated. As a companion plant to Marechal Niel we anticipate a splendid demand for it. Price, 10c each; large 2-year-old plants, 30c; extra large plants, 50c.

Yellow Rose, Marechal Niel—A rose so famous as to really require no description. Its magnificent golden yellow buds are worn the world over; they illustrate the globular form in its perfection, and are almost massive in dimensions. It is almost universally held to be the finest climber in doors or out, where the climate admits of its cultivation. This is one of the Roses that start rather slowly, and for that reason the best success will be held with the larger plants. This superb Rose is especially recommended for the Southern States, where it requires but little outdoor protection. Price, 10c each; large 2-year-old 25c; extra large 50c each.

THEY GIVE SPLENDID RESULTS--Our Strong Two-Year-Old Roses, Quick and Sure Bloomers. Always on Their Own Roots.

"Zero" Collection Hardy Ever-Blooming

ROSES

OUR customers often ask us for Roses that are ever-blooming and yet hardy. On this page we offer a splendid collection combining these two qualities. When ordering please say Zero set.

Price, 10 cents each. The full set of 10 varieties for only 50 cents. Large, two-year-old plants, 25 cents each. Full set of 10 in large two-year-old size, \$2.

Mosella, or Yellow Soupert.

MOSELLA.

Is another novelty that has been wanted for some years. Who does not know the beautiful Clothilde Soupert, the splendid bedding Rose? Mosella is a stronger grower, flowers are a little larger than the Clothilde Soupert, but appear the same way in clusters and on single stems; the color is chromo-yellow in the center, getting creamy-white on the edges of the petals; it will make a great bedder and perfectly hardy.

DINSMORE.

A grand Rose, very popular and highly recommended for garden planting on account of its hardiness and vigor of growth and constant and profuse bloom, which begins soon after planting and continues through the season. Flowers are large and perfectly double; color, rich crimson scarlet. Very showy and handsome and delightfully fragrant.

LA FRANCE.

We have always given this the first place, the queen of all the Roses. It is of superb form and double as a Rose can be. No variety can surpass it in delicate coloring, silvery-rose shades, with pink. It has a satin sheen over all its petals; hardy beyond question. It blooms continuously. The flower is large, finely built; endures a great length of time.

HERMOSA.

Everybody knows this famous variety. As hardy as an oak and always covered with its elegant clear pink bloom. There is not a shade of color of any kind to mar its purity. We doubt if any Rose ever grown will take its place.

CLOTHILDE SOUPERT.

This Rose originated with Messrs. Soupert & Notting, of Luxembourg, Belgium. It is a strong, vigorous grower. The flowers are large, double and beautiful in form, with the style of the beautiful Rose, Ball of Snow. The flowers are borne in sprays, and the color blends from a soft shell-pink to a pure satiny-white. Roses with both of these colors are produced on the same plant at the same time.

MAMAN COCHET.

This is a truly grand Rose. First offered in 1894, and therefore quite new. It is a vigorous grower, with rich, healthy foliage. The flowers are extra large, very double, full and sweet; borne on long stems; nice for cutting. Color, deep coral pink, delicately tinted with silver rose. Makes exquisite buds.

CAROLINE MARNIESSE.

A hardy Rose that is always in bloom. As a bedding Rose this variety has no superior. It is literally a continuous bloomer; when other Roses show only scattering blossoms, or none at all, the rows of Caroline Marniesse are a perfect mass of flowers. The blossoms are blush white, small but full, and borne in very pretty clusters.

METEOR.

A rich, dark, velvety crimson, ever-blooming Rose, as fine in color as the best of Perpetuals; the flowers are of good size, very double and perfect in shape, either as buds or when fully opened; the plant is vigorous and remarkably free flowering.

KAISERIN AUGUSTA VICTORIA.

A beautiful Rose, with elegant, large pointed buds and very large, full double flowers. Color, delicate creamy-white, deliciously fragrant. The plant is a strong, healthy grower and constant bloomer. The flowers are on strong, stiff stems, with rich, glossy foliage, making it one of the finest Roses for corsage wear or any other use to which cut flowers can be put.

EMPRESS OF CHINA.

This is a new Climbing Rose of the greatest excellence. It was brought to this country by a gentleman from Cuba, who says of it that it commences to bloom in May, and is loaded with its elegant blooms until in December. When it first opens the flowers are a beautiful red, but soon turn to a lovely light-pink, and it blooms so profusely as to almost hide the plant.

New and Rare Roses of Merit.

Mrs. Robert Garrett.

NEW ROSES, MRS. ROBERT GARRETT.

A magnificent new Rose originated by John Cook, of Baltimore, Md. The size is enormous; indeed the flowers are larger than any Tea Rose we have seen, while the form, both in bud and full blown flower, is most artistic and beautiful. The buds are unusually long and pointed; the open flowers full and double. The color is a pleasing soft pink, unlike anything seen in Roses. Strong, vigorous grower, producing its flowers on long stiff stems. Price, 10c each; strong 2-year-old plants, 25c each.

Virginia—This elegant Rose is the result of a cross between Safrano and Marechal Niel. We consider it one of the most promising Tea Roses of modern introduction. It is a vigorous grower, of bushy habit, the blooms are large and double, finely formed, lasting and of excellent substance, often remaining on the bush until dried up. Color a light yellow, with a tinge of saffron at the center and reverse of petals a pinkish cast. Perfume a delicate and delightful Tea scent. Price, 10c each; large 2-year-old plants, 25c each.

Comtesse Lilly Kinsky, New Tea Rose—Flower large, moderately fully, of beautiful form, bush white with yellow shadings; center almost ochre-yellow; very fragrant, very beautiful. Price, 15c each; 2-year-old plants, 30c each.

Clara Watson—Beautiful salmon-pink color, with very large buds and flowers. A vigorous grower, with handsome foliage. It is highly recommended for bedding. A very excellent variety. Price, 15c each; large 2-year-old plants, 25c each.

Madame Jules Grolez—An exceedingly free-blooming variety, with very bright, large full, finely formed flowers. Color a distinct and charming shade of satiny China rose. Price, 15c each; 2-year-old plants, 35c each.

Antoine Rivoire—A handsome new Rose of vigorous habit of growth, with large, full, Camellia-shaped flowers. Color, rosy flesh, on a yellow ground, shaded with a border of carmine. Flowers have been exhibited five inches in diameter. A remarkable variety of great growth. Price, 15c each; large size 30c each.

New Hardy Ever-blooming Climbing Rose, Mrs. Robert Peary.

Is a sport from one of the most magnificent and celebrated Roses grown, i. e., Kaiserine Augusta Victoria. This fact alone is sufficient to guarantee its advent, no matter what the climate may be, and it surely meets a demand that has never been supplied. The flowers are extra large, full, deep and double. They are of excellent substance, and are produced on long, stiff stems. If you want a quick growing, hardy climbing Rose—one that will give you flowers this year—this is the only white variety that will do it. Price, 15c each.

An Ever-blooming Hardy Yellow Sunset Rose, Mad'elle Germaine Trochon—A handsome new Hybrid Tea Rose of an entirely new color, with hardness and freedom of bloom to commend it. It is orange yellow, with shades of fawn, buff and light yellow. The interstices between the petals show depths of coloring approaching what is very frequently seen in our sunset skies, and which originally suggested the name for the "Sunset." Price, 10c each; large 2-year-old plants, 25c each.

Enchantress—(Tea.) A fine large, full flower of globular shape, creamy white, tinted buff at the center. Plant a strong, healthy grower with fine foliage and extremely free in bloom, very distinct and effective. Price, 10c each; large 2-year-old plants, 25c each.

Princess Marie Adelaide—(New.) This variety has a beautiful habit, and produces large clusters of small double flowers beautifully imbricated; color ivory white, with bright rose center. Price, 15c each; large 2-year-old plants, 35c each.

Souv. de Jeanne Cabaud—(New Tea Rose.) A beautiful "Frenchy" Rose of most exquisite color; it is very large and very full, and its chief beauty is in its open state, when its appearance is that of a pink rose set in the heart of a large orange rose. The outer petals are coppery yellow, the center bright carmine pink. It is a strong grower and free in bloom. Wherever bedding roses do well, this will be a delightful addition. Price, 15c each; large 2-year-old plants, 30c each.

Souv. de Jeanne Cabaud.

name. The Burbank is without exception the finest flowering Rose in cultivation. The flowers are double, of fine form, nearly three inches across. The color is a deep rose pink, shading to a beautiful soft rose at the center. Price, 10c each; large two-year-old, 25c.

The Beautiful New White Tea Rose, WHITE MAMAN COCHET.

The finest Rose of the year: like its parent the growth is vigorous with rich healthy foliage, producing fine large flowers of the purest white; in fact, it is an exact counterpart of the beautiful Maman Cochet, and all who have tried it pronounce it the finest bedding Tea Rose in existence. We would advise all who love choice Roses to plant at least one of this beautiful new Rose. Price, 10c each; large two-year-old, 25c.

Medea—Flowers bright yellow, with canary-yellow centers. Very full buds, with high centers; foliage dark and thick in color like Perle. This variety produces most of its buds of immense size and very double. Price, 10c each; large two-year-old plants, 25c each.

Climbing Marie Guillot—Climbing Marie Guillot is one of the most rapid-growing and vigorous Climbing Roses we have ever seen, small plants making a growth of ten to twenty feet in five months. It blooms continuously throughout the season, the first and every year. The flowers are magnificently made, extra large, deep and double. The color is pure snow-white, sometimes faintly tinged towards the center with pale yellow. Price, 15c each.

Mme. Helena Gambier—This is a decided advance towards a true yellow Hybrid Tea. The color at first is a salmon-rose, varying to apricot-yellow at base of petals, changing to rosy-flesh with deeper center in the open flowers. The plant is a robust, bushy grower, with erect stems and beautiful bronzy-green foliage. Price, 10c; large two-year-old plants, 25c.

White Pearl des Jardins—A pure white "Pearl of the Garden." A superb Rose. Price, 15c each; large two-year-old plants, 30c.

Fire Pearl (Perle de Feu)—New Tea Rose. A perfect Gem. The flowers and buds are perfectly formed, and the color so intense that its name, "The Fire Pearl," is a better description than any we can give. Price, 8c each. The full set of five varieties for only 30c. Large two-year-old plants, 25c each. Set of five, in two-year-old size, \$1.00.

CRIMSON RAMBLER.

After three season's trial this variety has made a record which places it at the head of the list as the most desirable Hardy Climbing Rose. It is of vigorous growth, making shoots from eight to ten feet in height during a season. As a pot plant it is unequalled for decorative purposes. The flowers with which the plant is covered in the spring are produced in large trusses of pyramidal form and of the brightest crimson color. The blossoms remain on the plant for a great length of time without losing their brightness. The foliage is also retained to a great extent during the winter, making the plant almost an evergreen. It is extremely hardy, having withstood the test in exposed situations of three very severe winters.

YELLOW RAMBLER.

Aglaia—This new Hybrid Noisette produces its flowers in the same manner as the popular Crimson Rambler—That is in large pyramidal-shaped trusses, frequently being from fifty to one hundred flowers in a truss. In color it is a decided yellow, with moderate sized cup-shaped nearly full flowers, which are sweetly scented.

WHITE RAMBLER.

Thalia—Similar to the Yellow Rambler in every way except color, which is pure white.

THE PINK RAMBLER.

Euphrosyne—Possesses all the valuable features found in its companion varieties.

THE GOLDEN RAMBLER.

Alister Stella Gray—Delightfully clove-scented. A fragrance not found in any other Rose. The Golden Rambler is a seeding Rose, raised by Mr. A. H. Gray, of Bath, the celebrated rosarian, who says of it: "It flowers in clusters, early and late—well into November—I have known it to make a growth of fifteen to eighteen feet in one season."

Crimson Rambler.

Beautiful Climbing Tea or Noisette Roses.

Climbing Meteor—All who know "General Jack" will call to mind its beautiful, high colored, rich, velvety-red buds and flowers. Climbing Meteor is the acme of all red climbing roses. It is a free, persistent bloomer, and will make a growth of from ten to fifteen feet in a season; in bloom all the time, as it is a true ever-bloomer. We do not hesitate to place it at the head of the list of all roses for Summer blooming, as it will make a strong growth, and is literally loaded with its deep, rich red flowers all the time. Price, 10c each; large 2-year-old plants, 25c.

New Red Climbing Rose, Climbing Souvenir de Wooten—A splendid climbing variety of this fine red now offered for the first time, and is bound to become very popular. Empress of China—This is a new Climbing Rose of the greatest excellence. It commences to bloom in May, and is loaded with its elegant blooms until December. Price, 10c each; large 2-year-old plants, 25c each.

It is a lovely Rose, and usually comes in large clusters of the purest white, and very fragrant. It will live out anywhere, as it is perfectly hardy. Price, 8c each; large 2-year-old plants, 25c each.

Climbing Perle des Jardins—A sport from [Perle des Jardins], the most popular of all Yellow Tea Roses. Climbing Perle is a strong, vigorous, climbing Tea, with beautiful, large, double golden-yellow flowers. Price, 10c each; large 2-year-old plants, 25c each.

J. DOYLE, New Bedding Double Geranium.

Always in bloom, whether in beds or in pots, indoors or outdoors. Remarkably new Geranium, is a cross between Grand Chancellor and Bruanti and is destined to take the most prominent place in bedding or pot Geraniums. In our grounds during the past season this grand variety was the center of attraction the entire Summer through, which was one of the hottest and driest known for years. It never lagged but grew and bloomed continually. The growth dwarf and massive. The color brilliant and rich vermillion-scarlet.

Montesquieu—One of the most exquisitely beautiful in color, which closely resembles that of the Grace Wilder Carnation. The floret is quite circular and more than semi-double. Truss of large size, nicely carried on good stems.

S. A. NUTT, The Great Crimson Bedding Geranium.

This the finest of dark crimson Geraniums, has now taken the lead as a bedding Geranium, being used in the largest parks and public grounds of the country in preference to all others. Its dense, compact growth, profuse blooming qualities and sun-proof constitution combined, give it the prominence as a bedder it has attained. We sold upwards of 25,000 plants of S. A. Nutt in the past season.

WHITE SWAN, Beautiful Cemetery Geranium.

In the White Swan we have the finest double white Geranium ever introduced, and, unlike other double white

Geraniums, it is suitable for bedding and flowers as profusely as the best single varieties. It is dwarf and compact

BEAUTY POITEVINE.

Very large, semi-double flowers, borne on immense trusses. Free bloomer, either as a pot plant or as a bedder. It has no equal of the color, which is a brilliant salmon, very clear at the borders. This might well have been called "Salmon Bruant," as it is identical in every way but color.

EMILE DE GIRARDIN.

No one who has not seen this lovely pink Geranium as it is grown in the beds and borders of the Northern parks can imagine the beauty that lies in a flower of that color. Of a deep, soft rose, rather than pink, but fresh and bright, the blossoms are perfect in form, and borne well and clear above the foliage.

BRUANT, The Great Double Geranium.

The giant among Geraniums. We consider this the best bedding Geranium of all varieties. The plant abounds in vigor; foliage strong, striking and of perfect habit. Color of the flower is a bright vermillion-red of most pleasing shade. The flowers are absolutely perfect in shape, color, and make up; trusses exceptionally large and borne in immense spherical balls, often measuring eight inches in diameter. It makes a compact, dense growth, and has all the qualities that go to make the perfect bedder that it is. Fine also in pots.

Glorie de France—Large, round florets, of waxy appearance,

colors carmine and white, with carmine center, each petal delicately edged with carmine. An excellent pot variety, to which its habit is finely suited. It is one of the prettiest Geraniums we have. This is the most beautiful of all parti-colored Geraniums, which appear so bewitching to the eye. The very brightest color imaginable.

The Philadelphia is a solid, massive-looking globular flower, as round as a ball, very large in size, and has deep, incurved, grooved florets of good breadth all the way round, or veined on the outer face. The tips of the florets are rather sharply pointed, and the color is clear white, slightly tinted primrose at the tips. It has received highest awards wherever exhibited in this country.

Magnificent flower. Received first-class certificate at Philadelphia and Indianapolis. A strong grower; stiff stems.

Marion Henderson.

New early variety. No engraving can show the rich, but very yellow colors of the flowers, which is superb. It is full of petals and lasts a long time; in fact, although very early, it can yet be made late, because it remains perfect on the plant for a long length of time.

Mrs. Robert Craig.

Fisher's Torch.

Chrysanthemum, Fisher's Torch; it heads the procession—This variety excels in its color as Golden Wedding does in yellow. The color is a bright red, passing to the richest velvety-crimson; the flame-like flower borne at the ends of the long, stiff stem gives it the appearance of a flaming brand, hence the name, "Fisher's Torch." This Chrysanthemum is this year offered for the first time, and we recommend it as a perfect gem.

Mrs. Perrin—Has slender, stiff stems, ornamental foliage. The flower is of globular form, incurved, full, and with a finish as fine as satin. Color, rose-pink within, glistening pink without. Recognized as the ideal variety in this color. Received first prize wherever shown as best pink, at Boston, Philadelphia, Chicago, and received the most flattering notices everywhere.

Mad. Bergman—A grand, new, early Chinese variety of dwarf habit, very full in growth, and with large, dark-green foliage. The flowers are large and globular, with reflexed petal; color, pure white, with creamy center; especially valuable because it is the earliest of all the flowering sorts.

Golden Trophy—A grand early yellow variety of elegant dwarf growth and beautiful foliage quite up to the flower, which is very large, compact, and crowned with petals incurving into a complete golden ball of the most beautiful color. A wonderful keeper, either cut or growing on the plant.

who saw it at the World's Fair. There is nothing brighter or clearer among yellows. The center of the flower is folded close; the outer petals are broad, incurving, of great substance. The winner of twenty first premiums and gold medals.

Mrs. Henry Robinson—A perfect form, of the Queen of England type, of exceptional merit, large and well finished. An early white, blooming with us October 5th. Fine substance and very lasting.

Glory of the Pacific—A grand, new and magnificent pink. We predict that this fine variety will rank first among the pink sorts. Of magnificent size and depth, with broad petals, which finally reflex, showing the clear pink color to excellent advantage. This variety will delight every lover of the beautiful and artistic.

Eda Prass—A fine, bold, recurving, globular flower of great substance and depth. When opening, of a delicate salmon, then changing to a creamy-white, delicately shaded blush.

Yellow “Good Gracious”—Exactly like “Good Gracious,” except in color. Remarkable for its large size, as first sight of it usually brings forth the exclamation which has suggested its name; petals incurved and twisted, overlapping each other in irregular fashion. Color is a deep golden-yellow.

The Queen—A grand double white, of fine form and great substance, very rounded in form, incurving and full. Attracted a great deal of attention at Madison Square, where it was awarded first premium for best white.

Mrs. A. Blanc—Center of floret erect, outer petals horizontal or drooping, of rosy-lavender, center soft clear rose, with a touch of gold in the center; an exquisite rosy flower.

Gettysburg—This is a deep crimson variety, and excels in its color, as Golden Wedding does in yellow. Deep, rich crimson, which in the flower itself is soft and velvet-like. The outer petals are broad and drooping, and have a lustrous sheen in the sunlight. The form is flat, with drooping outer petals, which gives it a very graceful appearance.

Gloriosum—Light lemon color, with immense flowers, having narrow petals gracefully curved and twisted; quite early and one of the best.

Miss Kate Brown—The very finest of the early whites, coming into bloom the first week in October; fully six inches across; a fine incurved flower with broad petals; first-class disbudded and also beautiful in natural sprays.

ARAUCARIA EXCELSA.

Norfolk Island Pine—Various names have been suggested for this grand plant to properly convey to the mind the appearance of it. Some have called it the "Christmas Tree Palm" from its resemblance to a Christmas tree; others

have called it the "Star Palm," because the leaves are arranged to form a perfect star, but no descriptive name can give any adequate idea of its beauty. It has deep green, feathery foliage, arranged in whorls or tiers, rising one above the other at regular distances; its symmetry of form, grace and beauty of foliage is unequalled in the vegetable kingdom. It is easily grown in the house and is highly ornamental.

It has no insect enemies or diseases. The flowers are of almost every desirable color. By cutting the spikes when two or three of the lower flowers are open, and placing them in water, the entire spike will open in the most beautiful manner. Set the bulbs from six to nine inches apart and about four inches deep. Plant from the middle of April to first of June. It is a good way to plant at two or three different times, ten days or two weeks apart. This gives a succession of blooms from July to November.

Our "Superb" Mixture of Select Gladioli—This mixture includes all colors found in Gladioli. We recommend a free and liberal planting of these. The spikes of bloom are always in demand as cut flowers. Price, 2 for 5c; 10 for 25c; 25 for 50c.

THE BABYPRIMROSE.

(Primula Forbesi.)

The Baby Primrose.

OTAHEITE ORANGE.

A grand pot plant, and one of great beauty and novelty. It blooms most freely during the Winter, though it is likely to bloom at any and all times of the year. The fruit is about one-half the size of ordinary oranges, and very sweet and delicious. Price, first size, 50c each; second size, 25c each; third size, 10c each.

It is a wonderfully free-blooming plant, commencing to flower as soon as born. It is raised from divisions; also from the seed, though the latter method is unadvisable owing to the uncertain and variable character of the seedlings. It forms a dense rosette of somewhat fleshy leaves, from which spring the flowering stems, twelve, fifteen and even twenty inches tall, supporting three tiers or whorls of dainty flowers of a delicate rosy-lilac, with eye of pale gold. The flowers are not more than half an inch in diameter, but they are produced in such great abundance that a few plants presents a dense mass of bloom, which continues without interruption and with increasing vigor from September until June. The plant then is benefited by a rest; and, having now formed a dense clump, it is desirable that it be divided and the stock increased thereby, each plant making ten to twelve divisions. As a pot plant it cannot be surpassed. We would advise all our customers to give it a trial; we are confident that its dainty flowers will more than repay you for the expense and trouble. Price, 10 cents each.

PRIMULA OBCONICA.

Always in Bloom.

This is a charming new plant for Winter. In fact, we know of none that is better adapted to home culture than this one. It is not susceptible to change of temperature that most plants are subject to. It bears its elegant panicles and sprays of bloom of a delicate pink and white in the greatest profusion. Price, 10 cents each.

MEXICAN PRIMROSE.

A very pretty trailing plant, bearing hundreds of bright colored flowers; nice for pots, vases and baskets; a very handsome and desirable plant. Price, 8c each; 4 for 25c.

Velvet Plant

Seems an appropriate name, the leaves being always taken as artificial. They and the stems are entirely covered with purple hairs. Shining, glistening, reflecting many new colors. Any change of position appears to alter the color of the foliage. A grand plant. Of easiest growth. Price, 15c each.

OUR BEAUTIFUL NEW BEDDING COLEUS.

The Coleus will give more pleasure at less cost than any other plant. Their varied tints of crimson, gold, bronze and green, and richly blotched, veined, or margined, produce a brilliancy of color unequalled. The Coleus is the gardeners' paint box, bearing all the colors on its leaves, ready to be disposed in whatever ornate and parti-colored designs we may choose to display upon our lawns and parterres. In this field there is the greatest opportunity for an interesting exercise of the ornamental taste possessed by all flower lovers. The style is very appropriately called "carpet gardening." Whoever has been in our large city parks will never forget the little ornamental bed curving and quaint designs and mingling arabesques of orange, blue, canary-yellow, scarlet, silver-white, claret pale green, purplish-black and olive, that look like vari-colored rugs spread at short inter-

vals on the smooth lawn. Some times one

large circular bed is filled with maroon-leaved Coleus with very striking effect. Plants should be set about a foot

apart, so that when the size of the bed is ascertained it is easy to figure how many plants are needed of each

kind in a row. Leave the selection of favorites to us, as it is hard to describe the various tints. Price, 5c each; 12 for 50c; 25 for \$1.00; 100 for \$3.00

"GOLDEN GLOW."

Now offered for the first time. A hardy perennial plant, growing eight feet high, branching freely, and bearing by the hundreds on long, graceful stems, exquisite double blossoms of the brightest golden color, and as large as Cactus Dahlias. It grows vigorously and throws up strong, branching flower stems six feet high, laden with sheaves of golden blossoms as large as fair Chrysanthemums, and all having an elegant, graceful appearance, without any of the stiffness in habit or blossom peculiar to sunflowers. Many eminent florists and amateurs have seen it here, and all admired it. As cut flowers, the blossoms last well. Swainsonia, or Swanflower.

A new plant for winter blooming, which surpasses any novelty that has been brought out in many years. It has a most beautiful fern-like foliage and blooms perpetually every day in the year, its blossoms being the shape and nearly the size of Sweet Peas, and borne in great clusters of twenty to forty. These clusters appear at the axils of the leaves, and a single branch shows many clusters of blooms at all times. The plant is a free and rapid grower, beginning to bloom in three or four weeks from cuttings, and continuing for years. It is easier to grow and manage than a Geranium, thriving in any soil and in any window, and is a superb bedding plant for the garden in Summer. We believe there is no plant so easy to grow, nor one that thrives and blooms under all conditions as does this charming Swanflower.
